Credit Report

Credit reports are key to helping you confidently protect and manage your identity. You can rest assured - reviewing your report does not negatively impact your standing or score.

Financial institutions, employers and insurers use credit reports to gain insight into your financial profile. Because they provide a record of your present and past credit use, credit reports may determine whether or not you will be offered credit, and on what terms. Inaccurate or fraudulent account information on credit reports can result in denial of credit, higher loan and insurance rates and even rejection for employment. The Federal Trade Commission (FTC) has prepared A [Summary of Your Rights Under the Fair Credit Reporting Act](#), you may also find additional information on their website www.FTC.gov/credit.
